# Prioritization Proposal

## Current Prioritization

Households on the community queue will be prioritized for up to 80 percent of available supportive housing resources based on their score on the COVID-19 Risk Screening and Triage Assessment Tool. Among those with the same score, unsheltered households will be prioritized.

Standard CES operating procedures will be used to prioritize households on the community queue for up to 20 percent of available supportive housing resources.

## New Proposed Prioritization

Households on the community queue will be prioritized for up to ~~80-20~~ percent of available supportive housing resources based on their score on the COVID-19 Risk Screening and Triage Assessment Tool. Among those with the same score, unsheltered households will be prioritized.

Households on the community queue residing in temporary cold weather hotels will be prioritized for up to 40 percent of available supportive housing resources based on their VI-SPDAT scores. Among those with the same score, households with longer length of time of current homelessness will be prioritized.

Standard CES operating procedures will be used to prioritize households on the community queue for up to ~~20-40~~ percent of available supportive housing resources.
