Healthy Minds: What we do

- Data-driven **research** and **problem-solving**
- Identifying and advancing **policy** to improve systems
- Building a **better climate** for change

HEALTHY MINDS
POLICY INITIATIVE

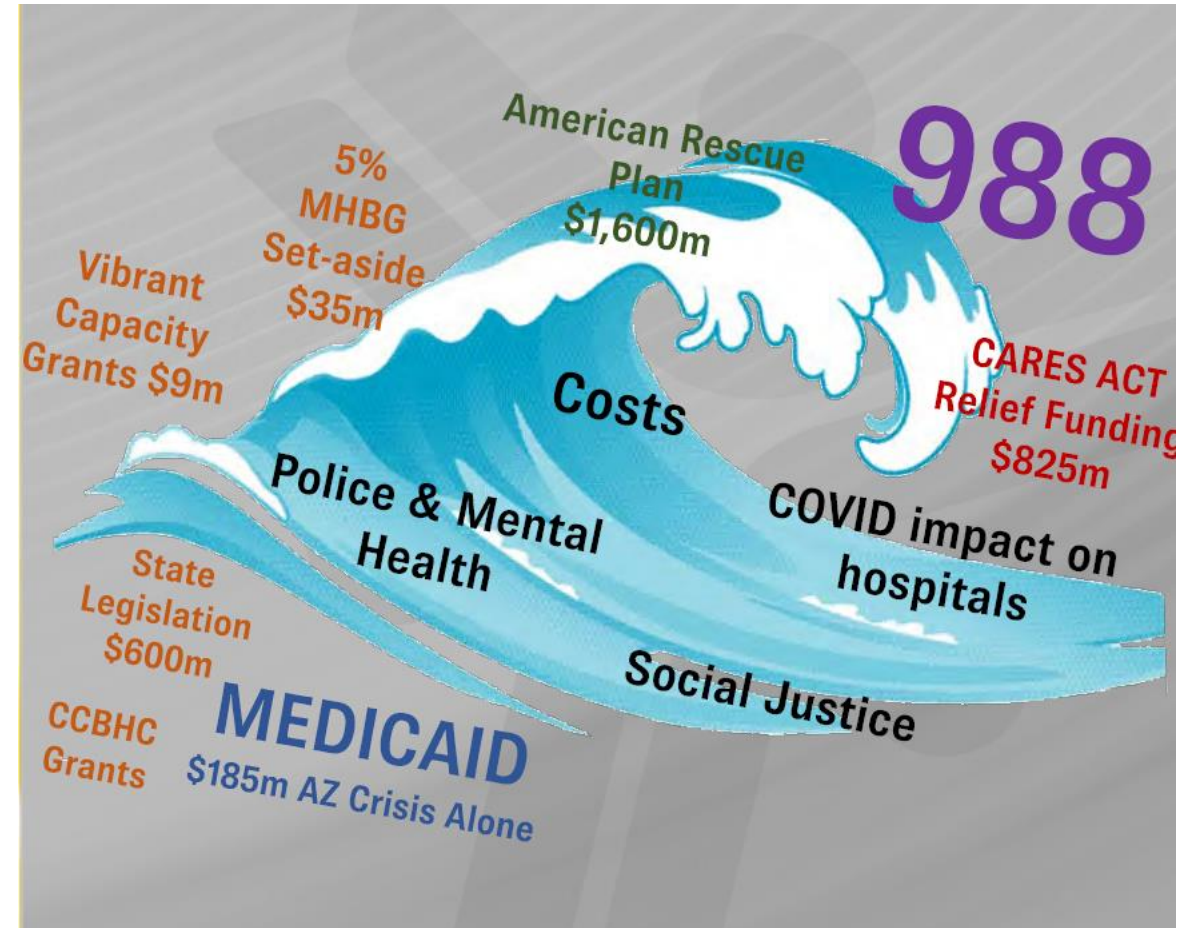

We support policymakers with collaborative, data-informed strategies and approaches that **reduce the devastating effects of mental illness and substance use disorder** on Oklahomans, their communities and their state budget.

National Context

- Federal legislation: 988 phone number must be activated by July 2022
- Single contact point for mental health crisis. Replaces/augments:

- Big question: What happens after the call?

Oklahoma's strategy (ODMHSAS)

Comprehensive Crisis Response Overview

ODMHSAS aims to build upon its current crisis system to **enhance the response Oklahomans receive** when experiencing a psychiatric emergency.

1

One Call Away Helpline

First we'll start with **An easy to remember helpline number (988)** to answer all calls of those experiencing a mental health crisis, with the goal to assess and resolve crisis situations at this touchpoint.

2

When Necessary Mobile Crisis Team

When needed, this system will dispatch statewide mobile crisis teams to the situation for **further assessment and intervention.**

Reducing the need for law enforcement intervention and costly hospitalizations.

3

Follow Up Appointments

The system will be equipped with the ability to **make appointments at all of Oklahoma's Community Mental Health Centers, Comprehensive Community Addiction Recovery Centers, and Certified Community Behavioral Health Clinics** for next day outpatient services, as well as the ability to follow up with persons after crisis situations to increase engagement with lower levels of care.

4

Getting There Transportation

In addition, this model includes **private sector transportation** for secondary transports greater than 30 miles.

Reducing the need for law enforcement to transport long distances.

Will place mental health professionals in law enforcement dispatch in the metro areas.

5

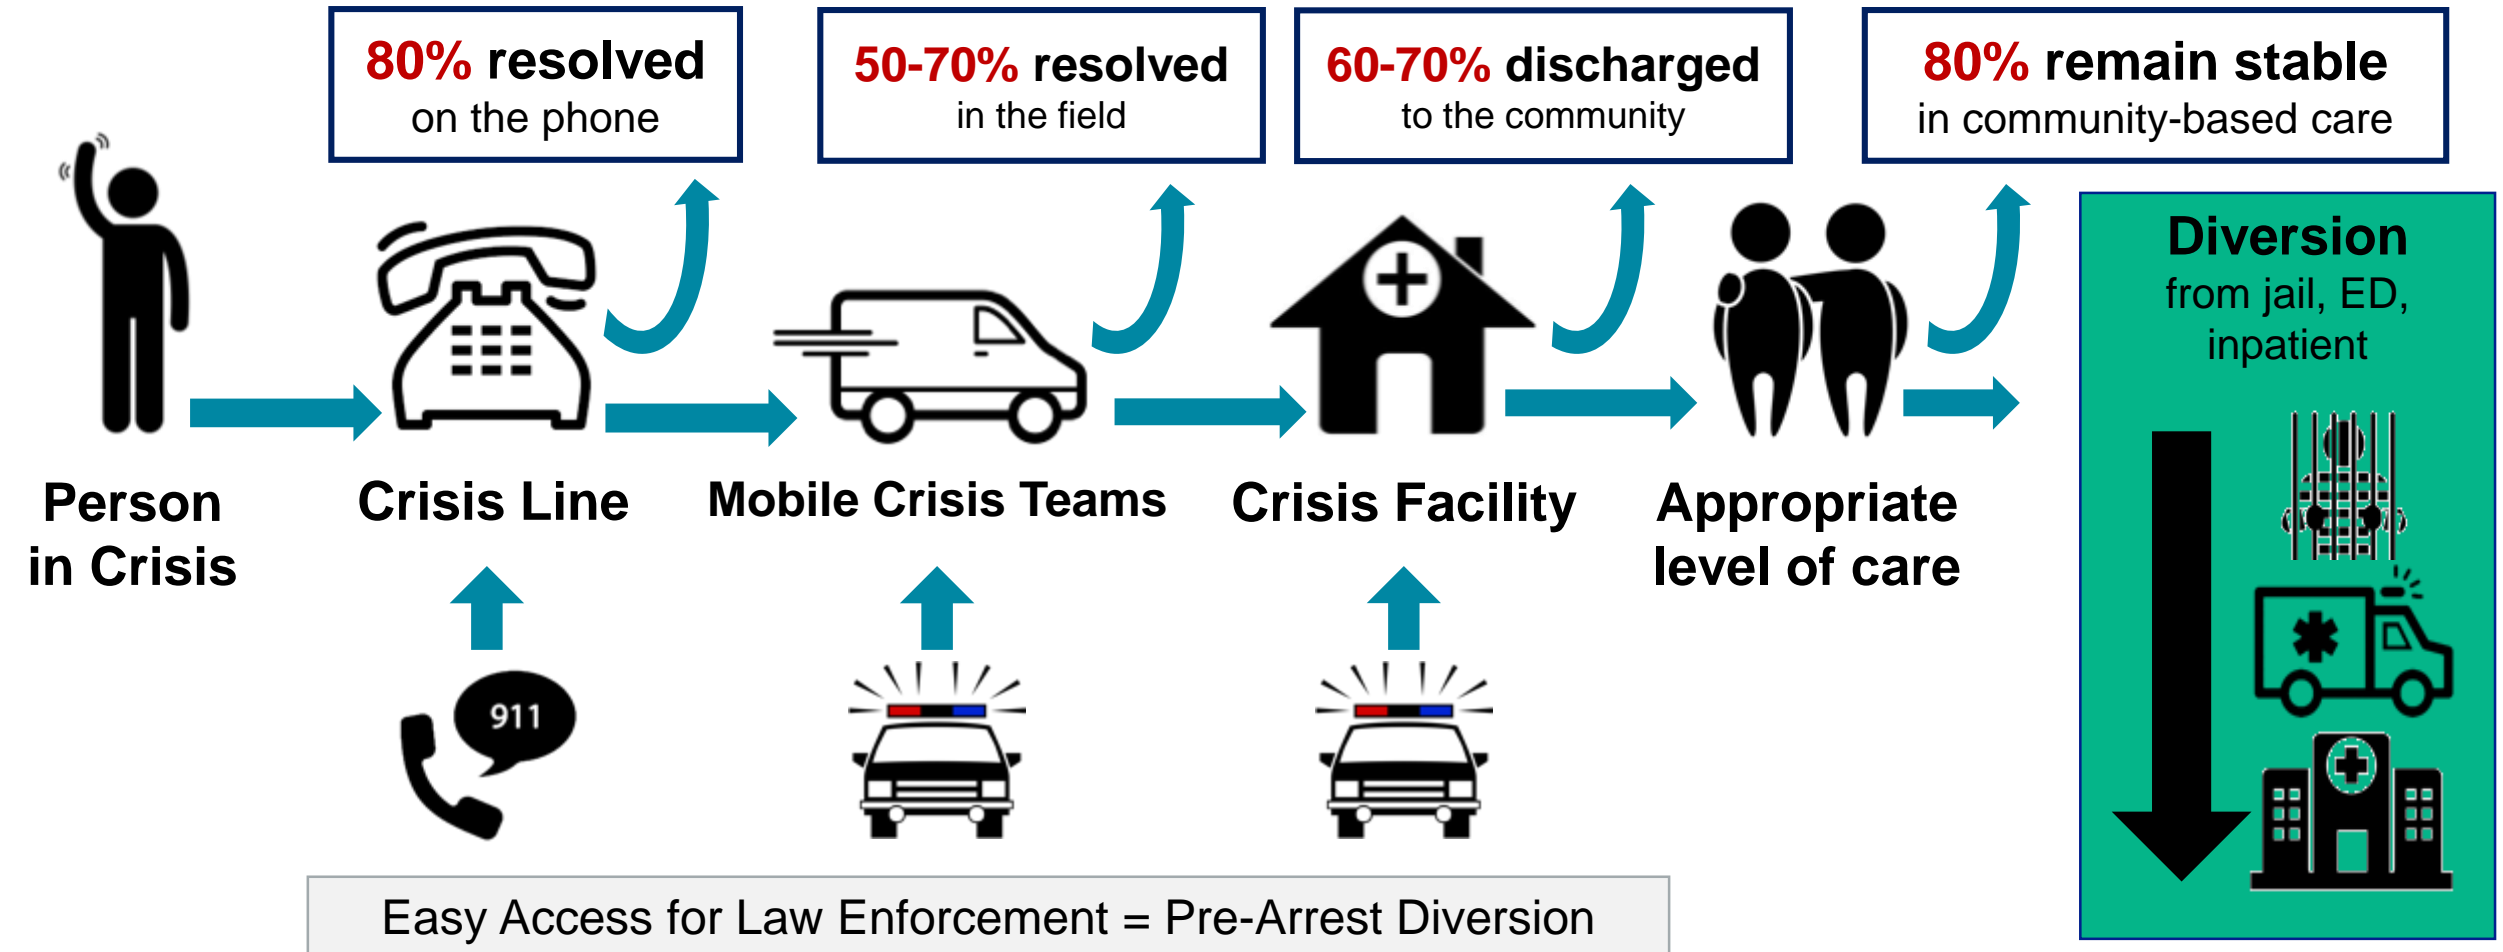

Nearby Care Facilities

Furthermore, the enhanced system proposes adding additional crisis units with urgent care centers across the state – **diverting 90% of those needing inpatient psychiatric hospital care.**

Minimizing law enforcement travel for assessment and treatment.

The ideal crisis care system

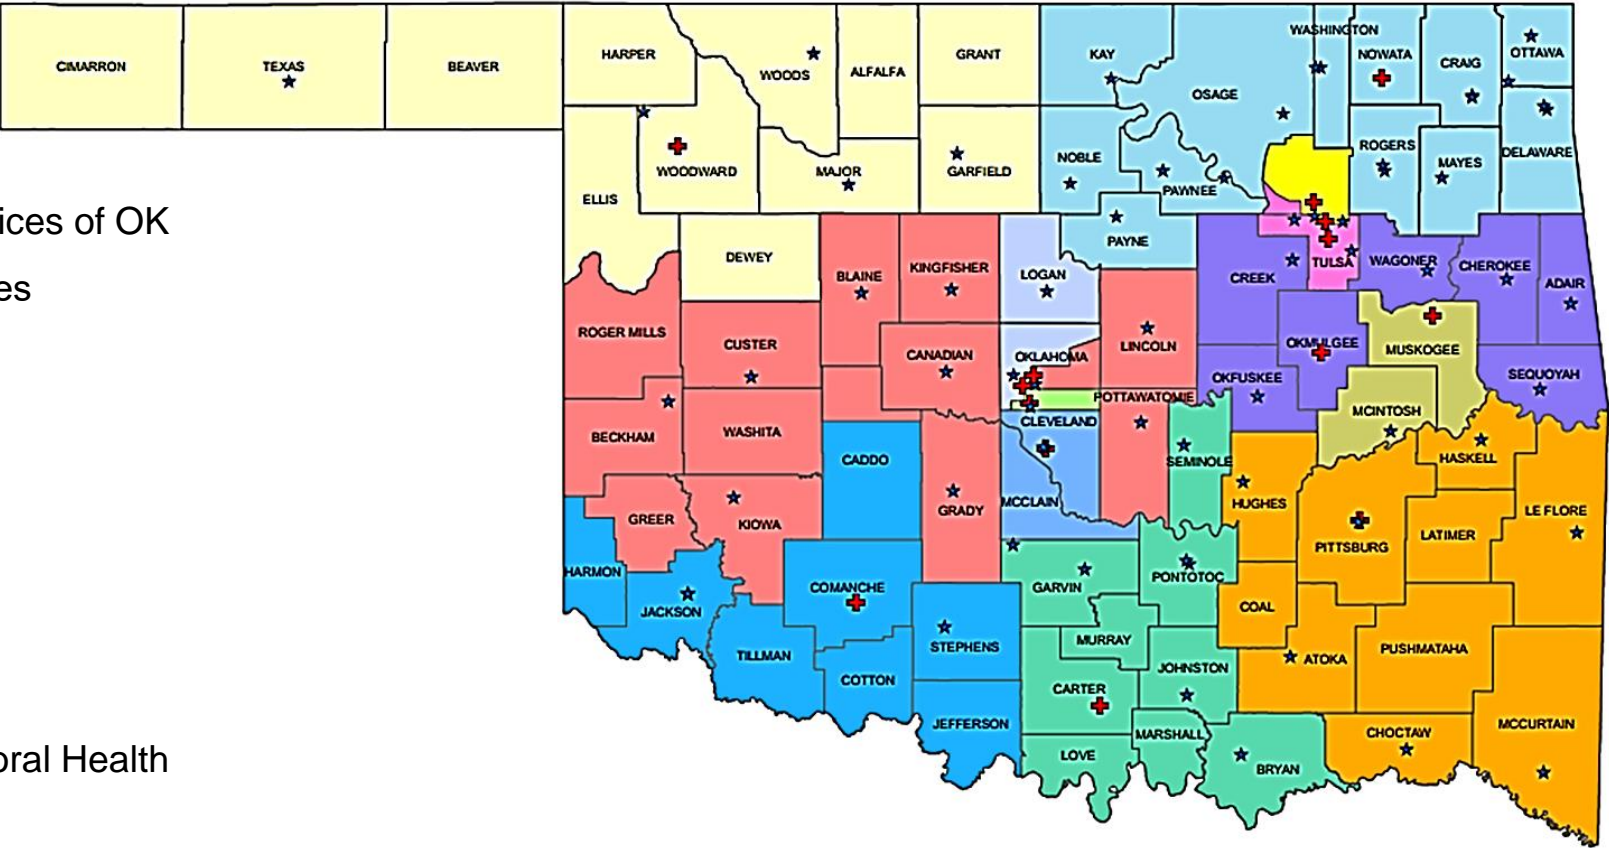

← **Earlier intervention = better for costs, patient**
