8. Permanent Supportive Housing is at 95% utilization as of today

## 1) 2023 Housing Inventory Count –

### ii. Occupancy 2023 Housing Inventory Count

1. This is report we turn into HUD that shows the number of beds and units in our system.

iii. Greg brought awareness to the fact that occupancy is at 97%, which is a negative trend in housing placement, it could be that with. With 97% occupancy, there will be a slowdown in the placement because we won't be able to absorb new people. WeOlivia stated that we do not have units for people who are ready for housing. There are 800 people eligible for supportive housing and we only have 15 units. available. Those units are either not ready for move in or they have already been matched to someone. There are not enough units to house everyone who needs housing.

### iv. 2022 System Performance Measures

1. We submit this to HUD with all the agency providers, this is a score card.
2. Our opportunity area is data quality
3. We want to track people leaving a project
4. We see a high number of people who are returning to emergency shelter
5. We see an increase in length of time homeless
6. We want to ensure accurate living situations are updated on project entries
7. We still see a decrease in adults with earned income
8. Areas of strength and improvement
  - a. Decrease in number of returns to homelessness of those exiting SO, TH, SH, PH
  - b. Adults leaving increased nonemployment income sources
  - c. Increase in successful exits and housing retention for permanent housing clients
  - d. JT explained the 17% increase - Coming out of COVID, the 2019 annual count of people experiencing homelessness was 5265. In comparison, we rose to 4644, so we are still coming out of COVID issues and we see a change as COVID really ends. Olivia said that there are a lot of new agencies that are also connecting with clients that we may not have seen before.

plan in OKC where they have figured out a hospital discharge plan. Someone said that a grant was submitted so that no one is discharged into homelessness overnight. Someone asked about the people released from prison into homelessness, and Becky responded that we are putting a plan together for them.

- ii. Sarah Grounds asked for a follow-up on the work happening around homeless students. Olivia responded that there were a few things that needed to be clarified by TPS, so we will follow up with details.
  - iii. Jeff Jaynes let us know that HB 2109 passed the senate committee, but we must meet about ongoing strategy to come up with a response to the multifamily housing corporation. They are saying that there is no retaliation and that it would be bad for landlords, but we need to tell state senators that we want to see this move forward. This will affect bad landlords, ones that would retaliate against a tenant who makes a valid complaint to the health department. Those landlords can evict or to create hardships for the person who alerted the health department. We want to be proactive in stopping that.
  - iv. To get legislative updates, follow the newsletters for Restore Hope Ministries, OK Policy, and/or Housing Solutions.
  - v. Affordable Housing Day at the Capitol is Monday, May 17.
  - vi. Go to [oklahomacoalitionforaffordablehousing.org](http://oklahomacoalitionforaffordablehousing.org) to learn more about HB 2040.
  - vii. Restore Hope is offering emergency rental assistance
  - viii. Greg stated that Governor Kevin Stitt is not renewing the Executive Order that created the Governor's Interagency Council on Homelessness (GICH). This group is the keeper of the state plan to end homelessness and tracks all the continuums of care. If that's not renewed, there will be no entity in Oklahoma that reports to the US Interagency Council on Homelessness, which keeps the federal plan. Any advocacy that can be done should be. No reason was given on why he is not renewing.
- Next LC Meeting – Tuesday, May 9<sup>th</sup>, 1:30 – 2:30 PM, followed by program panel conversations
